It is a diverse course that has various areas of specialization including Human Resources, Information Technology, Data Analytics, Marketing, Logistics and Supply Chain, Banking and Finance and many more.

Mr. Ferid Balti

MBA Graduate, Batch II
Business Manager, France

“The online learning platform was also easy to navigate, organized in a logical way so that the content made sense, and provided helpful tools for completing assignments such as uploading documents for peer review or accessing additional resources. Additionally, the virtual classroom, setting allowed me to collaborate with peers which broadened my perspective on various topics of discussion. I also had all the needed support from the administration staff and the campus manager who made the enrollment process and all admin tasks quite simple and easy as never.”
